OBJECTIVE

CSE undergraduate at North South University (CGPA 3.99) specializing in AI, Deep Learning, and Computer Vision, with experience in PyTorch and optimizing exact graph algorithms in C++. Seeking research assistantships in machine learning and computer vision.

EDUCATION

North South University Bachelor of Science in Computer Science and Engineering CGPA: 3.99 Specializing in Artificial Intelligence, Deep Learning, and Computer Vision	Dhaka, Bangladesh Sep 2022 – Present Completed 110+ Credit Hours
Faujdarhat Cadet College Higher Secondary Certificate (Science) GPA: 5.00	Chittagong, Bangladesh 2015 – 2021

SKILLS

Languages	JavaScript, Python, C++
Frameworks & Tools	PyTorch, Next.js, React, Node.js, GIT, REST APIs
Databases	MongoDB, MySQL
Academic strengths	Machine Learning, Full-Stack Development
Soft Skills	Communication, Time Management, Leadership, Team Coordination

EXPERIENCE

Senior Instructor Phoenix Education	Oct 2022 – Feb 2024 <i>Dhaka, Bangladesh (Remote)</i>
- Mentored 100+ students in competitive admission preparation, improving analytical thinking and academic performance, designed and delivered structured educational content in collaboration with academic and support teams. - Led tutorial sessions and supported individual learners, significantly improving comprehension and performance - Gained experience in assessment, feedback, and performance tracking	

PROJECTS

DensePCE: Exact Pseudo-Clique Enumeration Optimization

Optimized an exact pseudo-clique enumeration framework in C++ by integrating FPCE pruning strategies and implementation level improvements. Implemented CSR-based graph storage, intrusive bucket-based degree maintenance, and Turán-based clique seeding via EBBkC to reduce recursion overhead and accelerate enumeration on large real-world graphs.

MarkFlow — Collaborative Markdown Editor with AI

Built a real-time collaborative web application using Next.js and MongoDB. Implemented AI-assisted content drafting, live Markdown preview, and role-based access control (RBAC). Focused on scalability, real-time updates, and clean system architecture.

CERTIFICATIONS & ACHIEVEMENTS

• Machine Learning Specialization — DeepLearning.AI	September 2025
• Python Basics — University of Michigan	April 2024
• The Short Course on Data Science — North South University	February 2024
